ABOUT GIAN JORDON

Gian Jordan has been behind the decks for several years. He's a versatile and creative Dj able to perform and get the crowd moving no matter the setting. He is primarily an open format Dj able to mash different genres together tastefully. However, he has a deep passion for House & Dance Music.. Gian's experience living in Italy for a number of years, enabled him to discover his passion for spinning records and tap into the international music scene. Now, having returned home after making his presence known in California, he is establishing his name in the Big Apple one set at a time.

Incredible music selection, professionalism, reliability, and high level mixing are only some of Gian's traits. Every set is approached as if it were the first, ensuring it's flawless and matches the needs of the crowd and venue.

MORE THAN A DJ

Gian's skillset goes well beyond the ones and two's. He is an accomplished multi-genre Music Producer and Audio Engineer. He's been producing music for over 5 years and built a solid foundation in the online beat market through his production label and various platforms.

His resume is extensive including music licensing placements and engineering recording sessions in studios with major clients.
